

Prophetstown State Park presents

Pottery Workshop

Functional Art with Earth and Fire

March 9th 10am – 3pm

March 23rd 1pm – 3pm

Don't miss this two-part pottery workshop presented by Erik Vosteen, Great Lakes Lifeways Institute Assistant Director.

Using traditional tools, techniques, and materials, this workshop guides participants through the entire process of making open-fired, functional domestic earthenware. This workshop will familiarize participants with the raw materials, manufacture, uses, and cultural expressions of pottery in the Great Lakes region – from locating and gathering clay to cooking in the finished wares.

This workshop will be presented in two sessions:

Session 1 (March 9th) – Introduction and Making the Vessel

Session 2 (March 23rd) – Firing

We will focus on the ceramics of the Woodland Tradition and emphasize local cultural styles and vessel forms. As with all of our workshops, we provide all of the tools, raw materials, and instruction. Minimum age is 12 years old, and participants under 16 must be accompanied by an adult.

Workshop fee is \$45/person and space is very limited. Participants must pre-register and pay for the class by Friday, March 1st. Call 765-567-4919 or email amanuel@dnr.in.gov for more information or to register.
